evo_DRILL.

Single-Use-Perforators

evo_DRILL. Single-Use-Perforators

Positioning Tip for safe and stable drilling on uneven surfaces

Optimal blade geometry for fast and controlled perforation

Conical shape of the outer drill reinforces safe bracing of the evo_DRILL in the bone

Easy removal of the evo_DRILL;
no „Stick-Slip-Effect“ after drilling

Optimized bone chip removal

Housing made of high-strength aluminum
ensures smooth running

Universal Hudson Fitting

- All EVO_DRILLS are 100% „Made in Germany“
- Each EVO_DRILL is 100% end tested for its functionality before packaging
- All EVO_DRILLS are characterized by absolute precision and safety
- All EVO_DRILLS are infection free due to the gamma sterilization process

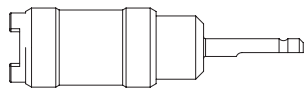

EVO_DRILL Single-Use-Perforators are available in eight versions:
four different diameters each for thin and thick bone areas

EVO_DRILL Single-use	Diameter outer/inner	Intend use	Adult	Pediatric	Colour
26-000002	9 mm / 6 mm	for cranial bones from 1 mm thickness		●	yellow
26-000003	9 mm / 6 mm	for cranial bones from 3 mm thickness	●		yellow
26-000004	11 mm / 7 mm	for cranial bones from 1 mm thickness		●	red
26-000005	11 mm / 7 mm	for cranial bones from 3 mm thickness	●		red
26-000006	13 mm / 9 mm	for cranial bones from 1 mm thickness		●	green
26-000007	13 mm / 9 mm	for cranial bones from 3 mm thickness	●		green
26-000008	14 mm / 11 mm	for cranial bones from 1 mm thickness		●	blue
26-000009	14 mm / 11 mm	for cranial bones from 3 mm thickness	●		blue

Adapter connection

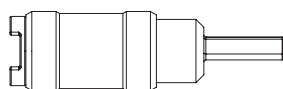

A0 adapter

26-000042

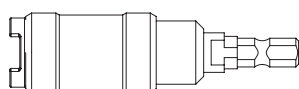

1/4 adapter

26-000050

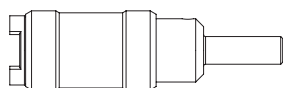

Triangle adapter (Reuleaux-triangle)

26-000051

Hall-Jacobs adapter

26-000052

cylinder round shaft adapter

26-000053

Perfect for use as an emergency kit!

Your drill + our adapter + eVO_DRILL = emergency kit

Advanced Neurosurgical Solutions

About evonos

evonos furthers medical technology. We develop, produce and distribute instrumentation and solutions for neurosurgery helping surgeons and patients. Our products and services are created to reliably diagnose the health status of patients, to treat them minimally invasively and to improve the quality of their life.
